

**NOTICE OF HEARING**

**STATE OF NEW MEXICO  
OIL CONSERVATION COMMISSION  
SANTA FE, NEW MEXICO**

The State of New Mexico, through its Oil Conservation Commission, hereby gives notice pursuant to law and Commission rules of the following meeting and public hearing to be held at 9:00 a.m. on **July 13, 2017**, in Porter Hall, 1st floor, Wendell Chino Building, 1220 South St. Francis Drive, Santa Fe, New Mexico, before the Oil Conservation Commission. If you are an individual with a disability who is in need of a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing, please contact Florene Davidson at (505) 476-3458 or through the New Mexico Relay Network at 1-800-659-1779 by **July 3, 2017**. Public documents can be provided in various accessible formats. A preliminary agenda will be available to the public no later than two weeks prior to the meeting. A final agenda will be available no later than 72 hours preceding the meeting. Members of the public may obtain copies of the agenda by contacting Ms. Davidson at the phone number indicated above. Also, the agenda will be posted on the Oil Conservation Division website at [www.emnrd.state.nm.us/OCD/](http://www.emnrd.state.nm.us/OCD/). A party who plans on using projection equipment at a hearing must contact Ms. Davidson seven business days prior to the hearing requesting the use of the projection equipment. Wireless internet is available; however, the party must provide its own laptop computer.

**STATE OF NEW MEXICO TO:**

**All named parties and persons  
having any right, title, interest  
or claim in the following cases  
and notice to the public.**

(NOTE: All land descriptions herein refer to the New Mexico Principal Meridian whether or not so stated.)

***Case No. 15740: Application of Targa Midstream Services LLC, whose address is 1000 Louisiana, Suite 4300, Houston, TX 77022-5036 to increase the approved injection rate in Order (R-13502-A) to 5MMSCFD of treated acid gas from its natural gas plant operations in Monument, New Mexico. The Monument AGI D#2 well (API # 30-025-43470) is located 685' FSL and 2,362' FEL of Section 36, T19S, R36E in Lea County, New Mexico.*** This request is the only change proposed to the existing order and all other parameters such as the injection zone, depths, pressure remain the same for this well as are currently approved under NMOCD Order R-13052, 13502-A and SWD-1654 and 1671. The injection interval remains unchanged in the Devonian/Fusselman formations at a depth of approximately 8,350 to 9,200 feet. The proposed maximum average injection rate will be approximately 5.0 million standard cubic feet per day of acid gases, at the already approved maximum surface pressure of 3,000 psig. This increased rate does not affect any additional wells than those originally identified in the applications which formed the basis for the existing approved injection orders. Inquiries regarding this application should be directed to Mr. Alberto A. Gutierrez or Mr. James C. Hunter at Geolex Inc, 500 Marquette Ave. NW, Albuquerque New Mexico 87102, (505)-842-8000.

Given under the Seal of the State of New Mexico Oil Conservation Commission at Santa Fe, New Mexico on this 14th day of June, 2017.
