

NEW MEXICO FORESTRY DIVISION
IQSWEB SYSTEM REGISTRATION & USER AGREEMENT FORM

IQSweb is a software program that allows users to track incident qualifications, experience, tasks books and fitness levels for individuals within various organizational levels throughout your agency. IQS also allows users to analyze the organizations training needs and schedule training based upon the agency needs for incident management personnel.

The purpose of this form is to register your New Mexico incident response organization with the New Mexico Forestry Division so that authorized personnel from your organization can utilize the IQSweb system hosted by the New Mexico Forestry Division.

Only those organizations that support incident response activities within the State of New Mexico can be provided with system access for the New Mexico IQSweb system. This registration form must be signed by an authorized representative within the organization seeking access. The NM Forestry Division will make final decision on this which organizations may register and who is deemed to be authorized representatives.
