New Mexico State Forestry Division Announces Fall Conservation Seedling Sale

Santa Fe, NM - The State Forestry Division Conservation Seedling Program fall sale kicks off online July 2. Landowners are encouraged to place their orders online now to get the best selection of seedlings in time for fall delivery.

More than 59,000 tree and shrub seedlings are available for purchase, including Apache plume, blue spruce, chokecherry, Douglas fir, Gooding's black willow, ponderosa pine, Rio Grande cottonwood, winterfat and many more.

"Planting in the fall gives young trees a chance to get established before going dormant for the winter," said Conservation Seedling Program Manager Carol Bada. "When spring arrives, the trees already have a good head start so they can flourish during the primary growing season."

Seedlings are available to landowners who own at least one acre of property in New Mexico. Landowners must also agree to use the seedlings for conservation purposes - this may include windbreaks, erosion control, wildlife habitat, riparian restoration, reforestation, Christmas tree plantations, or other conservation needs.

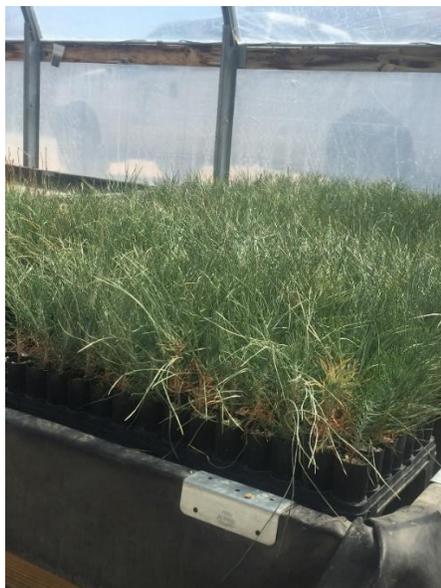

One-year-old seedlings are sold in 10-cubic-inch containers and available in minimum lots of 49 of the same species for \$80. Multi-species bundles are offered in one-season growth containers for the same price. ***There is a \$5 handling fee per order and all sales are final.***

The final day to order will be October 5. Distribution will take place between September 10 and October 12. The last day to pick up seedlings at the Santa Fe distribution center will also be October 12.

A full list of seedlings and ordering information is available at nmforestry.com. Payment with a Discover Card, Master Card, or Visa is accepted online. Checks are also accepted with mail-in application forms, which can be downloaded from our website. Landowners who wish to have an order form mailed to them should contact the New Mexico State Forestry Division at (505) 476-3325.

Seedlings are delivered by UPS, or may be picked up at the State Forestry seedling warehouse, Casa de Arbole (Tree House), [3250 Calle Princesa Juana](https://www.nmforestry.com), in Santa Fe. Hours of operation are Thursdays and Fridays, 8:30 a.m. – 12 p.m. and 1:00 p.m. – 4:30 p.m. A map to the distribution center is available online at [nmforestry.com](https://www.nmforestry.com).

All proceeds are reinvested back into the NM State Forestry Conservation Seedling Program.

Ponderosa Pine

Shrubby Cinquefoil
