New Mexico State Forestry Division Announces Spring Conservation Seedling Sale

Santa Fe, NM - The State Forestry Division Conservation Seedling Program annual spring sale begins December 3, 2018. More than 40,000 tree and shrub seedlings and 60 distinct species will be available for purchase online at NMForestry.com, including Arizona Cypress, Ponderosa pine, Chokecherry, Manchurian apricot, Native Plum and Douglas-fir.

"We have an amazing variety of seedlings perfect for all your needs - that windbreak you've always wanted, getting roots established to shore up arroyos, or simply providing food and a safe haven for wildlife," said Conservation Seedling Program Manager Carol Bada.

To qualify for the Conservation Seedling Program, landowners must own at least one acre of property in New Mexico and agree to use the seedlings for conservation purposes - this may include riparian restoration, reforestation, Christmas tree farms, or other conservation needs.

One-year-old seedlings are sold in minimum lots of 49 of the same species for \$80. Multi-species bundles are offered in one-season growth containers for the same price. Large container seedlings are sold in lots of 20 of the same species (Eastern Redcedar and Rocky Mountain Juniper) for \$57. Bareroot seedlings are sold in bundles of 25, minimum order of 50 (same or two different species), for \$62. ***There is a \$5 handling fee per order and all sales are final.***

The final day to order will be April 12, 2019. Distribution will take place between March 4th and April 18th. The last day to pick up seedlings at the Santa Fe distribution center will also be April 18th. Additional distribution points will include Aztec, Deming, Rio Rancho, Roswell, Socorro and Taos.

A full list of seedlings and ordering information is available at nmforestry.com. Payment with a Discover Card, Master Card, or Visa is accepted online. Checks are also

accepted with mail-in application forms, which can be downloaded from our website. Landowners who wish to have an order form mailed to them should contact the New Mexico State Forestry Division at (505) 476-3325.

Seedlings are delivered by UPS, or may be picked up at the State Forestry seedling warehouse, Casa de Arbole (Tree House), [3250 Calle Princessa Juana](https://www.nmforestry.com), in Santa Fe. Hours of operation are Thursdays and Fridays, 8:30 a.m. – 12 p.m. and 1:00 p.m. – 4:30 p.m. A map to the distribution center is available online at [nmforestry.com](https://www.nmforestry.com).

All proceeds are reinvested back into the NM State Forestry Conservation Seedling Program. Thank you for your support!
